

# INVESTOR PRESENTATION

JUNE 2022

# DISCLAIMER AND IMPORTANT NOTICES

## **Nature of Document**

This Presentation is provided on the basis that neither the Company nor its respective officers, shareholders, related bodies corporate, partners, affiliates, employees, representatives or advisers, make any representation or warranty (express or implied) as to the accuracy, reliability, relevance or completeness of the material it contains. Nothing contained in the Presentation is, or may be relied upon, as a promise, representation or warranty, whether as to the past or the future, and the Company hereby excludes all warranties that can be excluded by law.

## **The Presentation**

The presentation contains 'forward-looking statements'. As set out in more detail on Slide 23, by their nature, forward-looking statements involve known and unknown risks, uncertainties and other factors because they relate to events and depend on circumstances that may or may not occur in the future, and assumptions which may or may not prove to be correct (and may be beyond the Company's ability to control or predict), any (or all) of which may cause the actual results or performance of the Company to be materially different from the results or performance expressed or implied by such forward-looking statements. No representation is made that any forward-looking statement will come to pass, that any forecast result will be achieved, or that any assumption on which a forward-looking statement is based is reasonable. Forward-looking statements are made as at the date of this Presentation, and the Company disclaims any obligation or undertaking to release any update of, or revision to, any forward-looking statement contained in this Presentation. contains information relating to Mineral Resources estimates and Ore Reserves estimates. All persons reviewing this Presentation should refer to the JORC resource statements and competent person confirmations in the Appendix to this Presentation (slides 21 and 22).

## **Professional Advice recommended**

All persons reviewing this Presentation should consider seeking appropriate professional advice before making any investment decision. Neither the provision of the Presentation nor any information contained in the Presentation or subsequently communicated to any person in connection with the Presentation is, or should be taken as, constituting the giving of investment advice to any person.

## **Forward Looking and Cautionary Statement**

As noted above, some statements in this Presentation regarding estimates or future events are forward looking statements. They include indications of, and guidance on, future earnings, cash flow, costs and financial performance. Forward looking statements include, but are not limited to, statements preceded by words such as "planned", "expected", "projected", "estimated", "may", "scheduled", "intends", "anticipates", "believes", "potential", "could", "nominal", "conceptual" and similar

expressions. Forward looking statements, opinions and estimates included in this Presentation are based on assumptions and contingencies which are subject to change without notice, as are statements about market and industry trends, which are based on interpretations of current market conditions. Forward looking statements are provided as a general guide only and should not be relied on as a guarantee of future performance. Forward looking statements may be affected by a range of variables that could cause actual results to differ from estimated results, and may cause the Company's actual performance and financial results in future periods to materially differ from any projections of future performance or results expressed or implied by such forward looking statements. These risks and uncertainties include but are not limited to liabilities inherent in mine development and production, geological, mining and processing technical problems, the inability to obtain any additional mine licenses, permits and other regulatory approvals required in connection with mining and third party processing operations, competition for among other things, capital, acquisition of reserves, undeveloped lands and skilled personnel, incorrect assessments of the value of acquisitions, changes in commodity prices and exchange rate, currency and interest fluctuations, various events which could disrupt operations and/or the transportation of mineral products, including labour stoppages and severe weather conditions, the demand for and availability of transportation services, the ability to secure adequate financing and management's ability to anticipate and manage the foregoing factors and risks. There can be no assurance that forward looking statements will prove to be correct.

Statements regarding plans with respect to the Company's mineral properties may contain forward looking statements in relation to future matters that can only be made where the Company has a reasonable basis for making those statements.

The forward looking statements in this Presentation are based on current expectations, estimates, forecasts and projections about the Company and the industry in which it operates. They do, however, relate to future matters and are subject to various inherent risks and uncertainties. Actual events or results may differ materially from the events or results expressed or implied by any forward looking statements. The past performance of the Company is no guarantee of future performance. You are cautioned not to place undue reliance on any forward looking statement. The forward looking statements in this Presentation reflect views held only as at the date of this Presentation.

None of Horizon Minerals Limited or its directors, officers, employees, agents or contractors makes any representation or warranty (either expressed or implied) as to the accuracy or likelihood of fulfilment of any future looking statement, or any events or results expressed or implied in any forward looking statement, except to the extent required by law. The Company believes that it has a reasonable basis for making the forward looking statements in the Presentation, including with respect to any production targets and financial estimates, based on the information contained in this and previous ASX announcements.

## Richmond Vanadium Project (QLD)

- 1,500km<sup>2</sup> (25% interest)
- Resource of 1.8Bt of ore with 6.6Mt V<sub>2</sub>O<sub>5</sub> metal <sup>1</sup>
- PFS Reserve of 459Mt @ 0.5% V<sub>2</sub>O<sub>5</sub> (Reserve of 100+ years) <sup>1</sup>
- NPV<sub>10%</sub> A\$1.02B, IRR 62%, Payback 1.9yrs (first 20 years) <sup>1</sup>
- IPO planned Sep/Oct 2022 to complete DFS in 2023

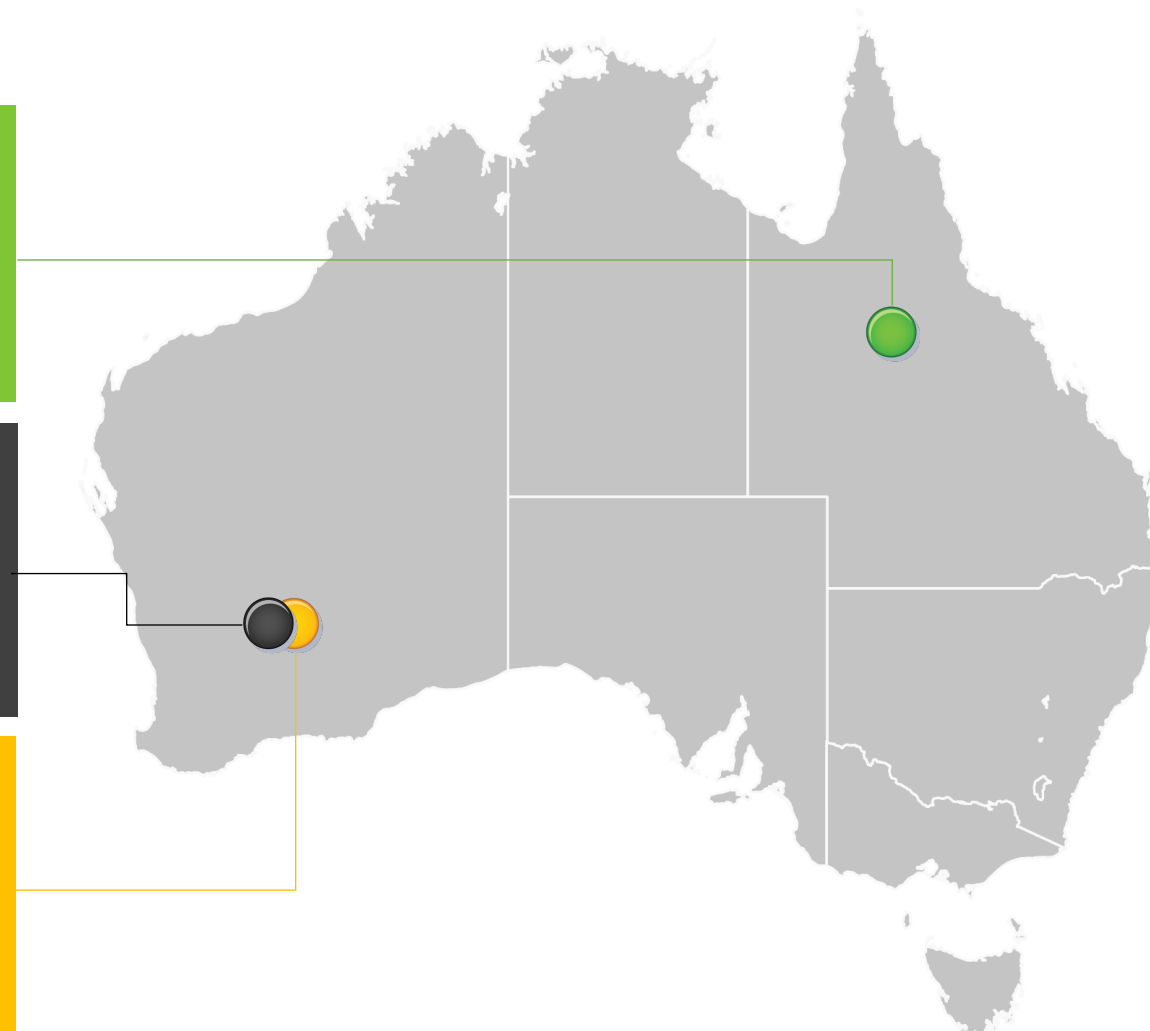

## Multi-commodity Projects (WA)

- New discovery drilling over 100% owned projects
- Yarmany 400km<sup>2</sup>, 50km strike, major structures (Ni, Li, Cu, Au)
- Lakewood - 90km<sup>2</sup> (Au, Ni, Cu, PGEs)
- Greater Boorara - Cannon area 200km<sup>2</sup>, Nimbus Resource of 20Moz Ag and 104kt Zn <sup>1</sup>, Cannon and Golden Ridge (Ni, Au) Nimbus-Gretel-Brindabella Shear (Ni-Co, Ag, Au, Cu, PGEs)

## Kalgoorlie - Coolgardie (WA)

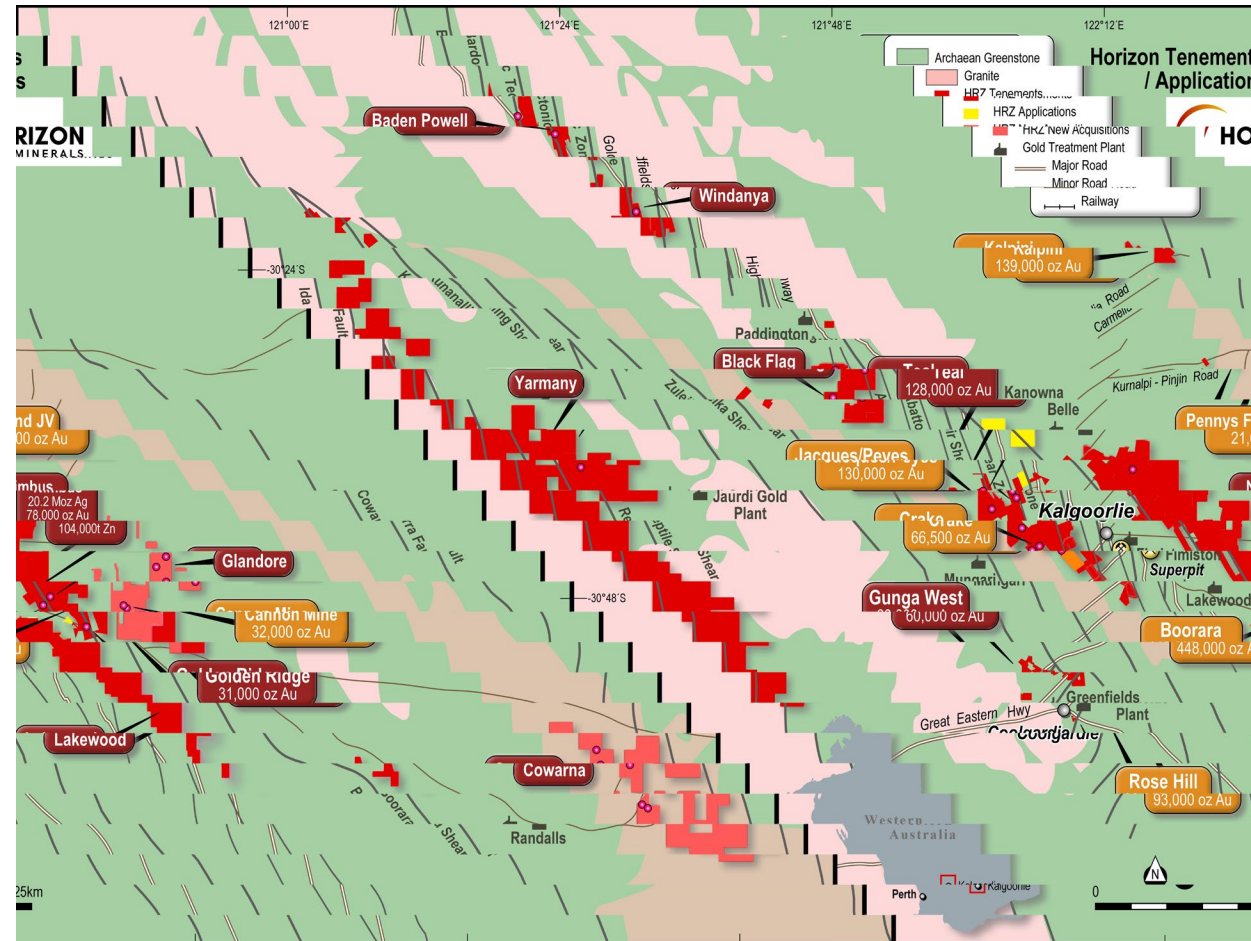

- 1,100km<sup>2</sup>, strategic landholding on major structures, 100% owned
- +1.1Moz Au Resource with 76% Measured and Indicated <sup>1</sup>
- Resource growth opportunities outside of current resource
- Access to existing infrastructure, potential JVs and M&A
- Generating cash from assets - Cannon and Penny's Find UGs

1. As announced to the ASX on 22 March and 26 April 2022, see Tables and Confirmations on Slides 21 and 22

2. Vanadium pentoxide graphic reproduced from Wikipedia (2022)

- 1.15Moz Au Mineral Resource at 1.7g/t Au with 76% in M&I<sup>1</sup>
- Large base load deposit at Boorara with trial mining and toll milling confirming grade and metallurgy
- Base load complemented by high grade open pit and underground deposits all within 50km of Boorara
- **Significant resource growth potential along strike and at depth with 25,000m of brownfields exploration planned in FY2023 focussed on <sup>2</sup>:**
  - Near mine extensions at Boorara, Golden Ridge and Cannon
  - Extensions and new resources at Binduli, Teal and Penny's Find
- Recent drilling at Golden Ridge intercepted <sup>3</sup>:
  - 2m @ 26.1g/t Au from 60m and 2m @ 20.8g/t Au from 80m
  - 14m @ 3.6g/t Au from 106m and 5m @ 8.1g/t Au from 57m

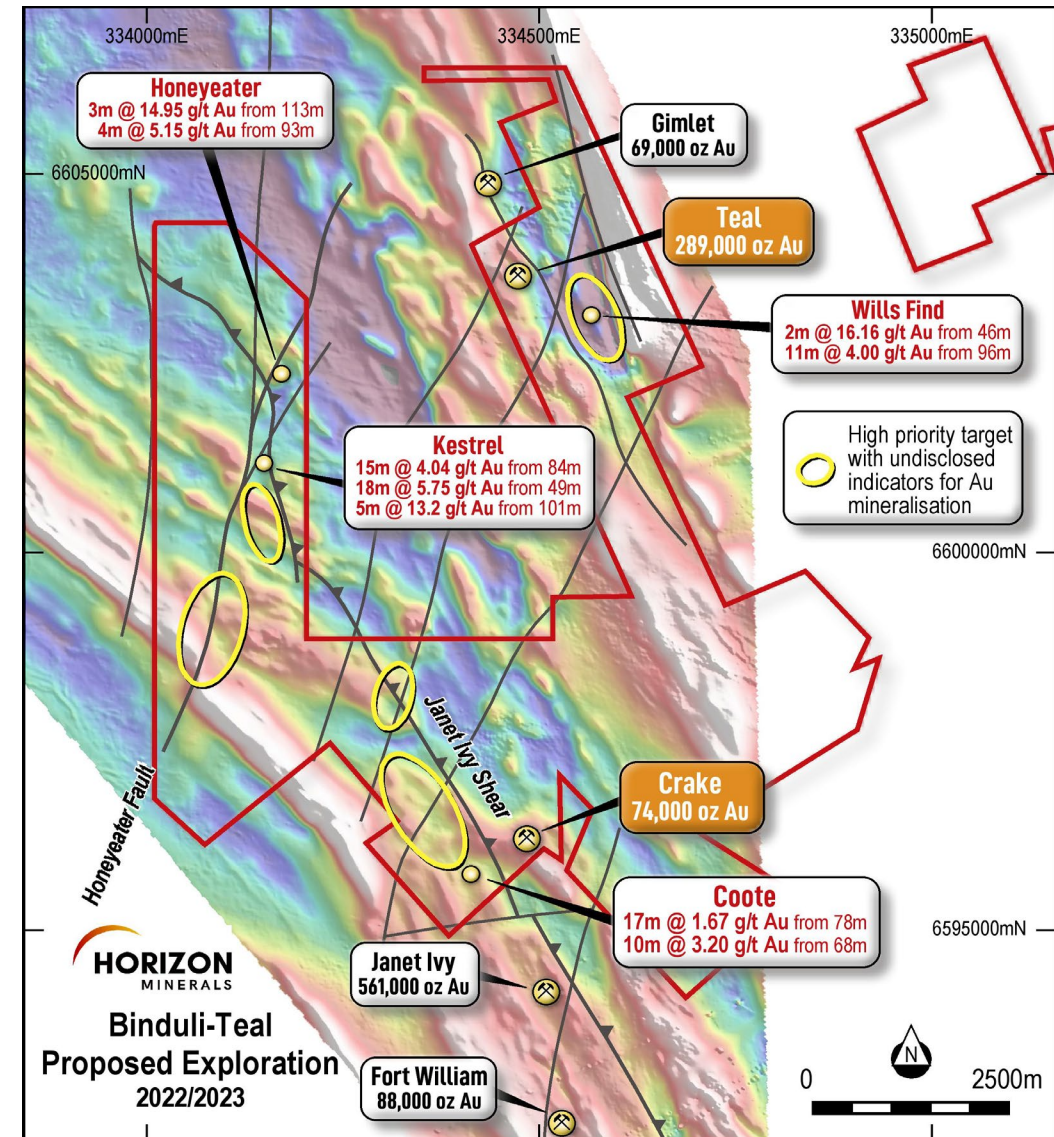

1. As announced to the ASX on 26 April 2022, see also tables and confirmations on slides 21,22
2. See Forward Looking and Cautionary Statements on Slides 2 and 23
3. As announced to the ASX on 15 March 2022

## BINDULI – TEAL (GOLD)

- Resource of 5Mt grading 2.1g/t Au for 325koz <sup>1</sup>
- Large holding in major gold producing region
- 10,000m drilling planned focussed on <sup>2</sup>:
  - Extensions at Teal, Crake and Coote
  - Follow up drilling at Kestrel, Honeyeater and Darter
  - New discovery on major NE fault structures
- Excellent gold results received from new Kestrel discovery including <sup>3</sup>:
  - 18m @ 5.75g/t Au from 49m
  - 5m @ 13.2g/t Au from 101m
  - 15m @ 4.0g/t Au from 84m
- Coote and Crake deposits converging into a larger porphyry system with results including <sup>3</sup>:
  - 5m @ 10.5g/t Au from 15m and 40m @ 1.6g/t Au from 39m
  - 12m @ 2.7g/t Au from 48m and 4m @ 9.3g/t Au from 75m

1. As announced to the ASX on 26 April 2022, see also tables and confirmations on slides 21,22  
 2. See Forward Looking and Cautionary Statements on Slides 2 and 23  
 3. As announced to the ASX on 5 October 2021 and 2 February 2022

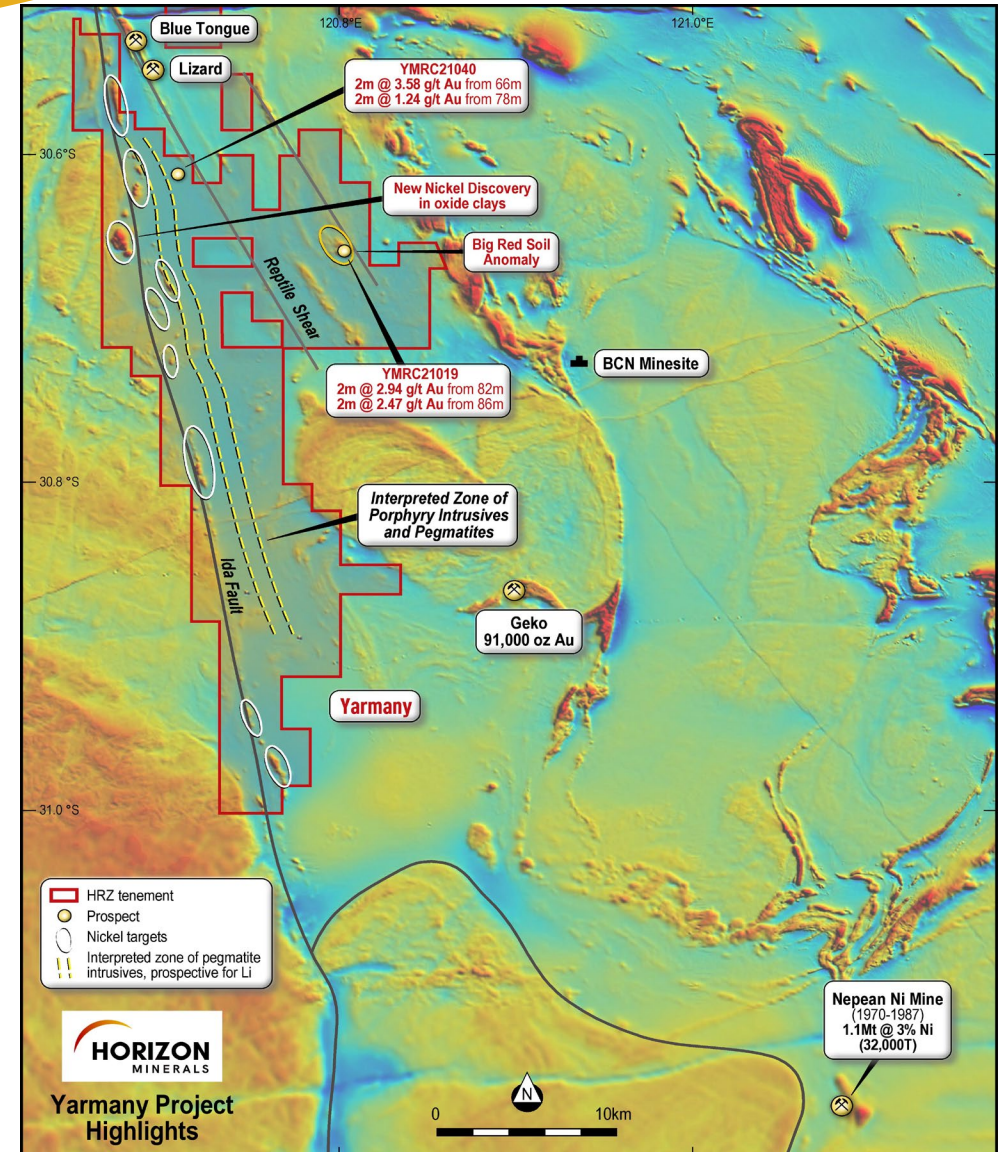

# YARMANY (GOLD, NICKEL – COBALT)

- Extensive targeting and field work completed including:
  - Geophysics, geochemistry, seismic, gravity and soils/rock chips
- High priority targets identified and drilling commenced in Dec 2021
- First pass Air Core and RC drilling completed with initial results highlighting multi-commodity potential
- New gold mineralisation intercepted including <sup>1</sup>:
  - 2m @ 4.94g/t Au from 86m and 2m @ 3.58g/t Au from 66m
  - 2m @ 2.94g/t Au from 82m and 2m @ 2.37g/t Au from 86m
- Anomalous nickel (up to 0.7%), cobalt (up to 767ppm) and copper (up to 332ppm) mineralisation intercepted proximal to the Mt Ida fault
- Auger program ongoing along the entire 50km strike zone with further assay results pending
- 10,000m of deeper RC drilling planned for FY2023 <sup>2</sup>

1. As announced to the ASX on 15 February 2022.

2. See Forward-Looking and Cautionary Statement on pages 2 and 23.

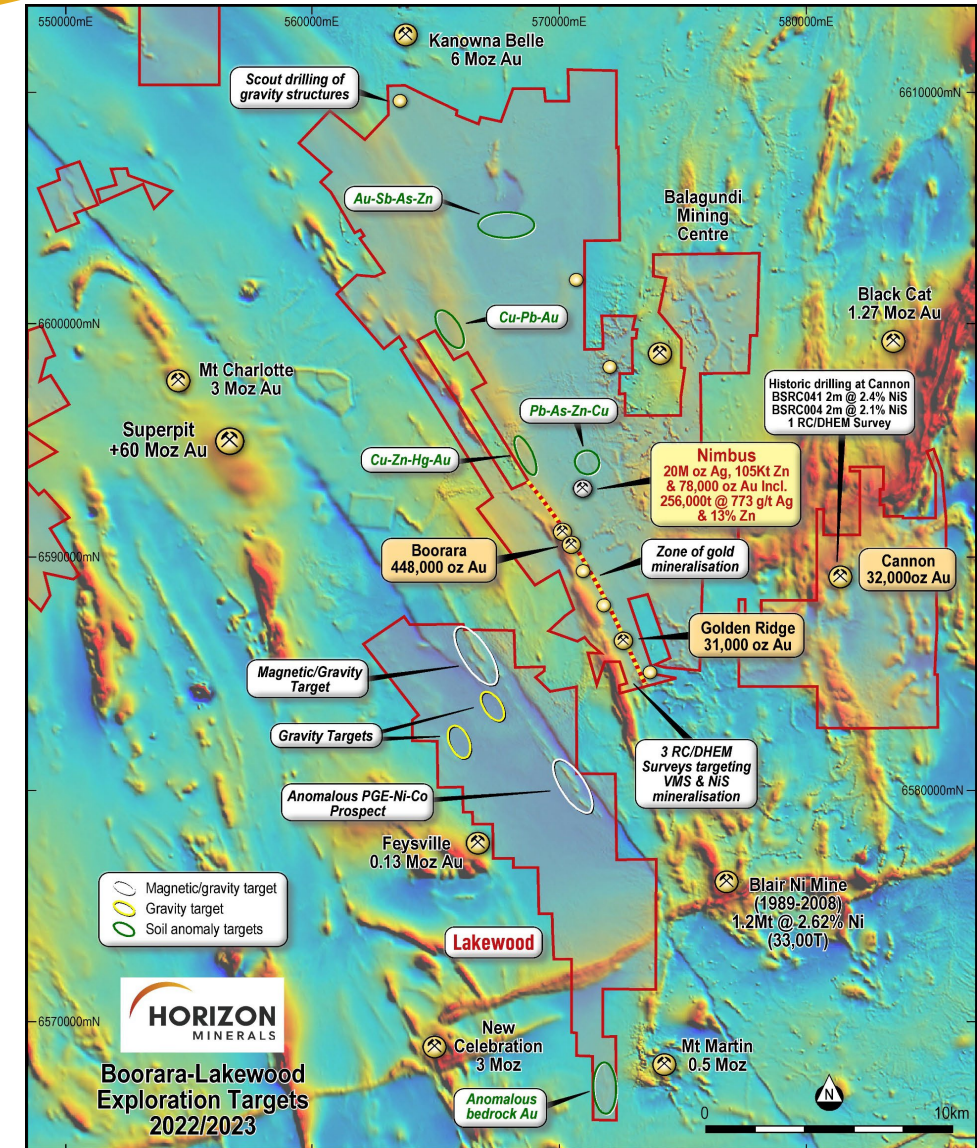

# FOCUS ON NEW DISCOVERIES ACROSS THREE PRIORITY PROJECT AREAS

## BOORARA – CANNON (GOLD – NICKEL )

- Geoscience and structural geology study identified multiple targets from Kanowna in the north to Golden Ridge in the south
- First pass Air Core and RC drilling completed in 2021 with excellent gold, nickel and cobalt results from Golden Ridge <sup>1</sup>
- Multi – element AC results and mapping identified fertile ultramafics west of Golden Ridge <sup>1</sup>
- Three deep RC holes to 330m with DHEM survey now completed in this area with assays expected early in the September Quarter 2022 <sup>2</sup>
- One RC / DHEM also completed to date at Cannon testing historic nickel sulphide mineralisation – results expected in June Quarter
- New concept targets for Nimbus “VMS” style deposits completed with follow up drilling testing for further high grade Ag-Zn lenses at depth and along strike <sup>3</sup>
- 10,000m of RC drilling planned for FY2023 <sup>2</sup>

1. As announced to the ASX on 15 March 2022
2. See Forward-Looking and Cautionary Statements on Slides 2 and 23
3. See also table and confirmation on slide 22

# LAKEWOOD (GOLD, NICKEL, PGE)

- Located immediately south of the Superpit
- Seismic, gravity and aeromagnetic studies identify multiple walk-up targets
- First pass Air Core drilling completed over mafic / ultramafic intrusives and historic prospects
- Initial results intercepted shallow highly anomalous nickel – cobalt and PGE mineralisation within the weathered profile <sup>1</sup>
- Focus on deeper drilling on the main gravity structures and prospective bedrock geology
- 10,000m of drilling planned in FY2023 <sup>2</sup>

1. As announced to the ASX on 7 April 2022.

2. See Forward-Looking and Cautionary Statement on pages 2 and 23.

# CASH GENERATION

- Assets close to existing infrastructure
- Potential to develop a sequence of low tonnage high grade deposits <sup>1</sup>
- Cannon resource of 32koz grading 4.3g/t Au with PFS completed and approvals well advanced <sup>2</sup>
- Penny's Find resource of 42koz grading 5.2g/t Au extension drilling planned for the June Quarter 2022 <sup>1,2</sup>
- Rose Hill underground resource of 75koz grading 4.6g/t Au with internal optimisation work underway <sup>2</sup>
- Current listed investments total ~A\$6 million with selected investments to be monetised over time as required

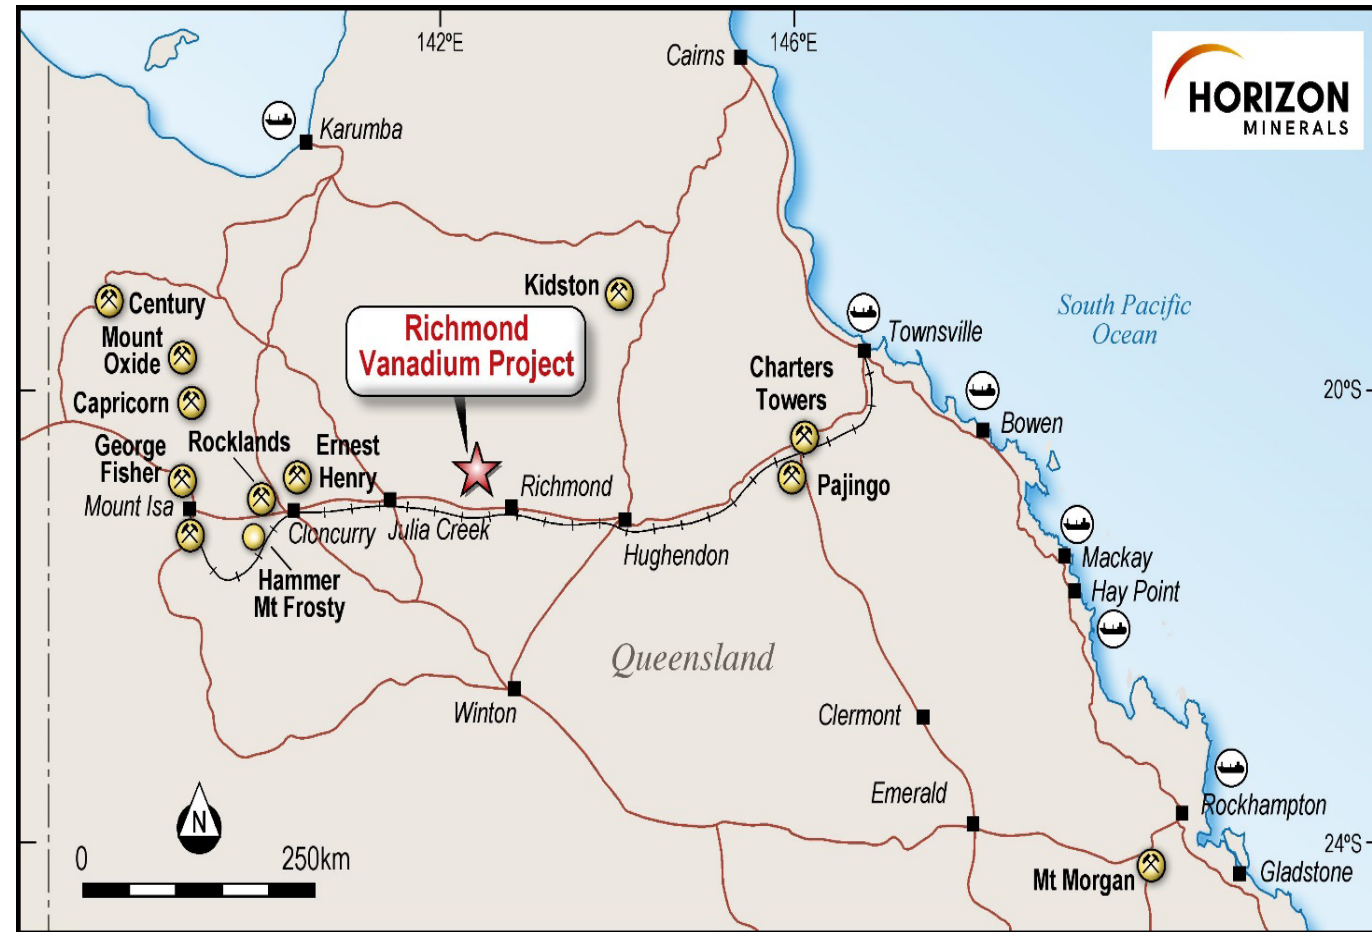

1. See Forward-Looking and Cautionary Statements on Slides 2 and 23.

2. As announced to the ASX on 26 April 2022, see also table and confirmation on slides 21 and 22.

# RICHMOND – JULIA CREEK VANADIUM

- Horizon owns 25% interest in the 1.8Bt Richmond – Julia Creek oxide vanadium project in Northwest Queensland <sup>1</sup>
- Extensive drilling, metallurgical test work and process flowsheet development completed and positive PFS released
- Lilyvale deposit now advancing to DFS and has potential to provide globally significant supply to the steel and emerging green energy storage markets
- Horizon and JV partner RVT have agreed to combine our interests into a dedicated IPO Vehicle holding 100% of the project and seek an ASX Listing <sup>2</sup>
- Intent to include an in-specie distribution of a portion of Horizon's interest to existing eligible shareholders and a priority offering in the IPO <sup>2</sup>
- Transaction documents executed and further details to be provided in the June Quarter for a potential listing in the September Quarter 2022 <sup>2</sup>

1. As announced to the ASX on 22 March 2022, see also Tables and Confirmations on slide 18

2. As announced to the ASX on 3 May 2022, see also Cautionary and Forward-Looking Statements on Slides 2 and 23

# RICHMOND – JULIA CREEK VANADIUM

- PFS Reserve of 459Mt @ 0.5% V<sub>2</sub>O<sub>5</sub> (Reserve of 100+ years) <sup>1</sup>
- Shallow open pit mining, concentrate generation onsite to 1.5 – 1.8% V<sub>2</sub>O<sub>5</sub> and conventional processing to 98% V<sub>2</sub>O<sub>5</sub> flake
- NPV<sub>10%</sub> of A\$1.02B, IRR 62%, Payback 1.9yrs (first 20 years) <sup>1</sup>
- First critical minerals project to receive QLD Govt Co-ordinated project status with DFS, IPO and approvals underway <sup>2</sup>

1. As announced to the ASX on 17 August 2021 and 22 March 2022, see also Table and confirmations on Slide 22  
2. See Forward-Looking and Cautionary Statement on pages 2 and 23

# HORIZON ACTIVATES ITS SUSTAINABILITY JOURNEY

## OBJECTIVE

To go beyond our obligations and to continuously look at ways to integrate sustainability across our business.

## OUR JOURNEY

Sustainability is a journey and Horizon understands that it is a business imperative to lay robust sustainability foundations to actively monitor, measure and improve on our material risks and opportunities.

## DATA DRIVEN ESG STRATEGY

As our organisation grows and we gather more data, we will look to communicate our progress with our stakeholders.

## STRATEGY

Established our Environmental, Social, Governance (ESG) baseline early

Aligned with global Sustainable Accounting Standards Board (SASB) Metals and Mining Framework

Conducted a Materiality Assessment across our organisation and key contractors to align internal and external expectations around ESG

Collected and verified our data against international metrics

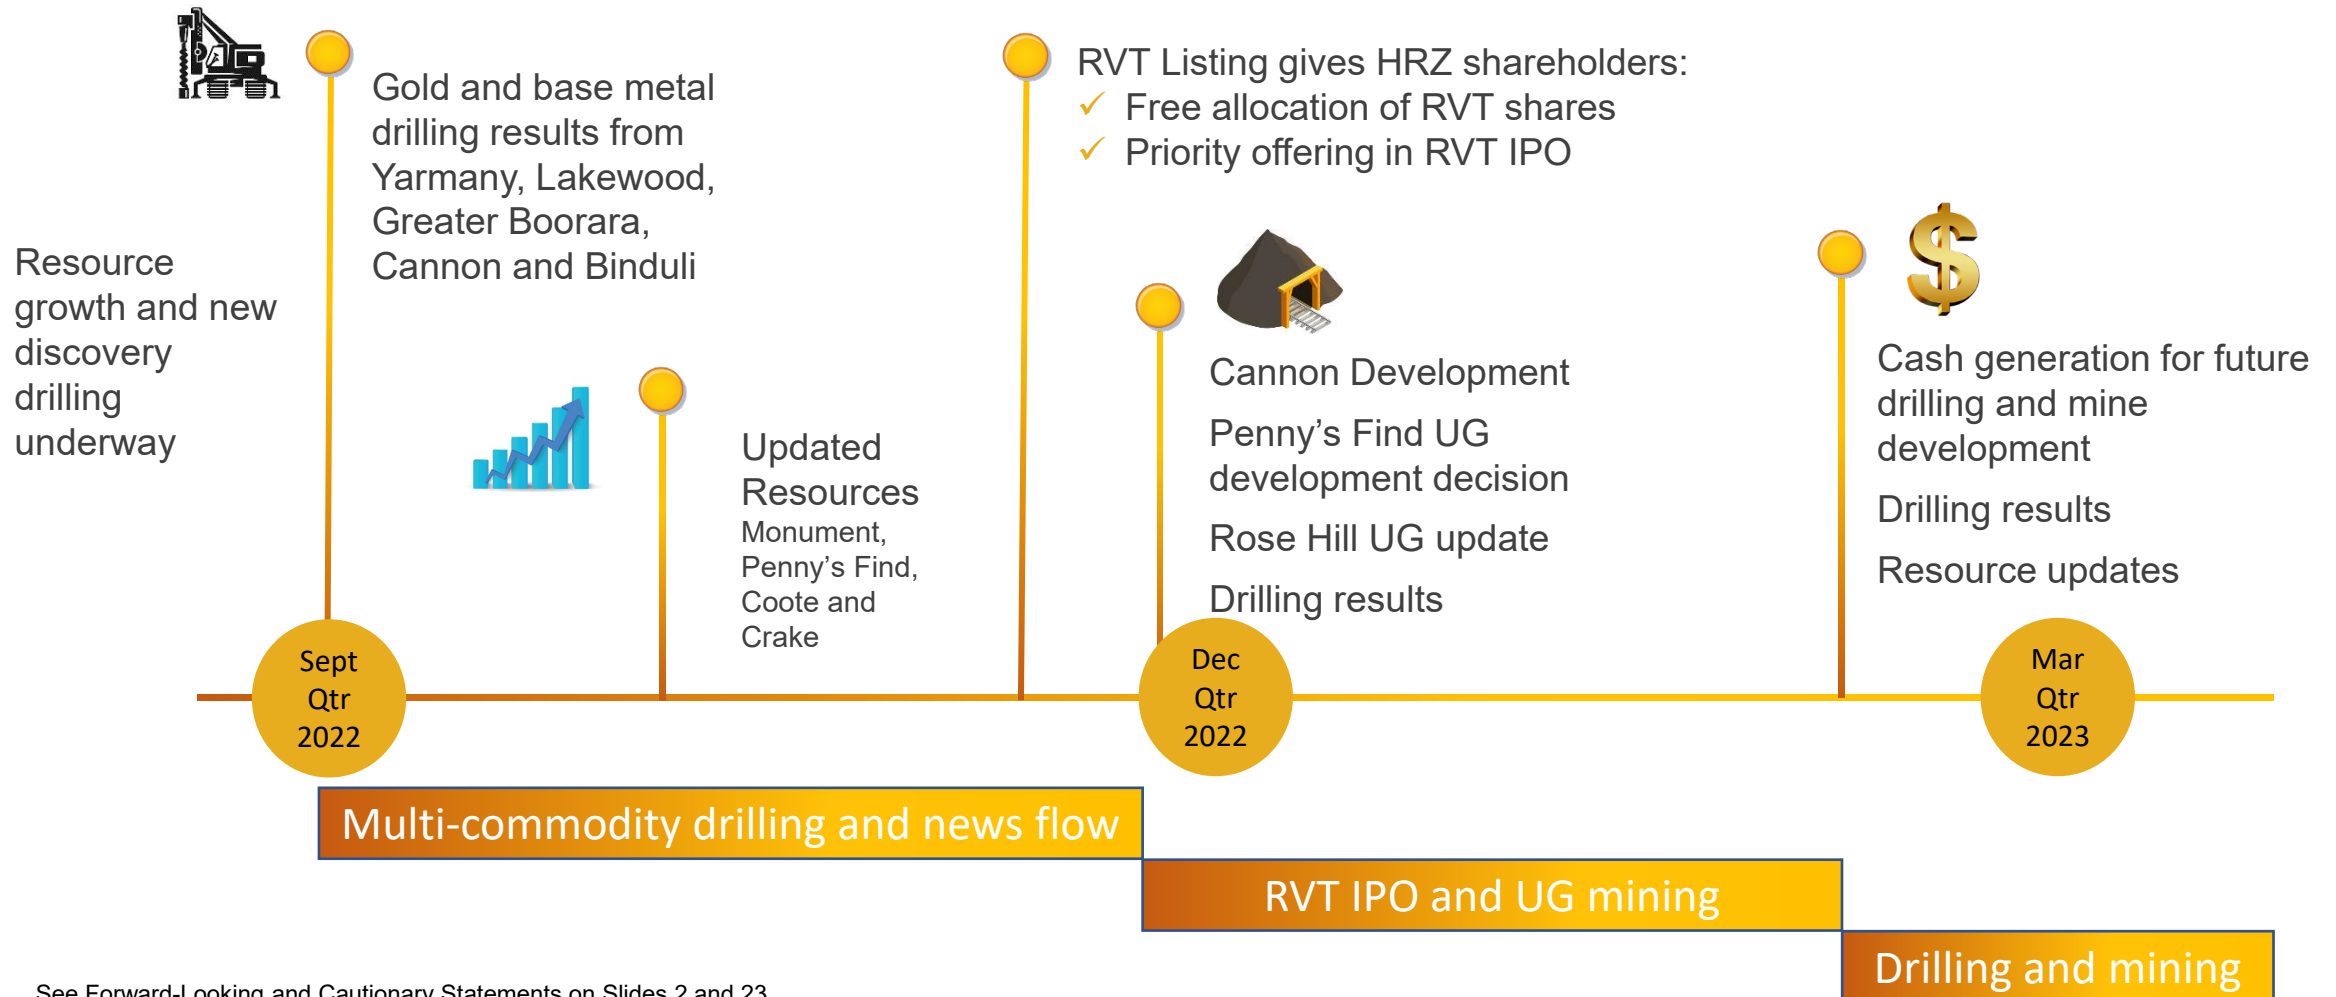

Conducted gap analysis and identified areas of value creation.

Adopted ESG technology to collect, verify and report on our progress going forward.

# KEY MILESTONES AND NEWSFLOW <sup>1</sup>

1. See Forward-Looking and Cautionary Statements on Slides 2 and 23..

# IN SUMMARY

Highly strategic asset position in close proximity to existing infrastructure and services within one of the most prolific and safe mineral provinces in the world

**175 years of collective experience**

**Within a strong Board and executive team**

**+1.15Moz**

**Gold in resource with significant opportunity for growth**

**Large scale drill programs planned for FY2023**

**Actively exploring for discoveries in previous base and precious metals – generating strong news flow**

**Near term cash generation potential**

**Multiple options to monetise assets in the portfolio**

**Demonstrated potential for new discoveries across the portfolio in multi-commodities**

**Key focus on the underexplored Yarmany, Lakewood and Greater Boorara areas**

**Shareholder exposure to the world-class**

**Richmond – Julia Creek oxide vanadium project**

# APPENDICES

# 175+ YEARS COMBINED EXPERIENCE OPERATING IN THE WA GOLDFIELDS

## LEADERSHIP TEAM

### Ashok Parekh, Non-Executive Chair

---

- Chartered accountant with over 40 years' experience who owns a large Accounting Practice in Kalgoorlie, which he has operated for 38 years
- Awarded the Centenary Medal in 2003 by the Governor General of Australia and was awarded the Meritorious Service Award by the Institute of Chartered Accountants, the highest award granted by the institute in Australia.

### Peter Bilbe, Non-Executive Director

---

- Mining Engineer with over 45 years' experience
- Has held senior management positions at Mount Gibson Iron, Aztec Resources, Portman, Aurora Gold and Kalgoorlie Consolidated Gold Mines
- Experience across all aspects of operations, feasibility studies, exploration, corporate functions, financing, capital raisings and mergers and acquisitions
- Past Chairman and NED of Independence Group for 13yrs and Director of Adriatic

### Jon Price, Managing Director

---

- Metallurgist with more than 30 years' experience
- Former GM of St Ives and Paddington gold mines and founding Managing Director of Phoenix Gold acquired by Evolution Mining for \$74.3M in 2015
- At Phoenix, consolidated prospective tenure in the WA Goldfields and built 4Moz resources through exploration
- Experience across company management, exploration, development, construction and mining operations

### Grant Haywood, Chief Operating Officer

---

- Mining Engineer with over 30 years' experience in underground and open cut mining operations
- Extensive mining experience managing mining projects from Feasibility through to operations for junior and multi-national companies including Goldfields Ltd, Saracen mineral Holdings and Phoenix Gold Ltd

### Julian Tambyrajah, Chief Financial Officer and Company Secretary

---

- Certified Practicing Accountant and Chartered Company Secretary with more than 27 years' experience in commercial and corporate finance roles in Australia and overseas resource Companies, 19 years at CFO level
- Extensive experience covering financial and techno-commercial areas including accounting, supply and logistics, project evaluation, feasibility studies, construction and operations management across small and large organisations

### David O'Farrell, Exploration Manager

---

- Highly experienced geologist with over 30 years' experience in project generation, conceptual and greenfields exploration, resource modelling and estimation and feasibility studies

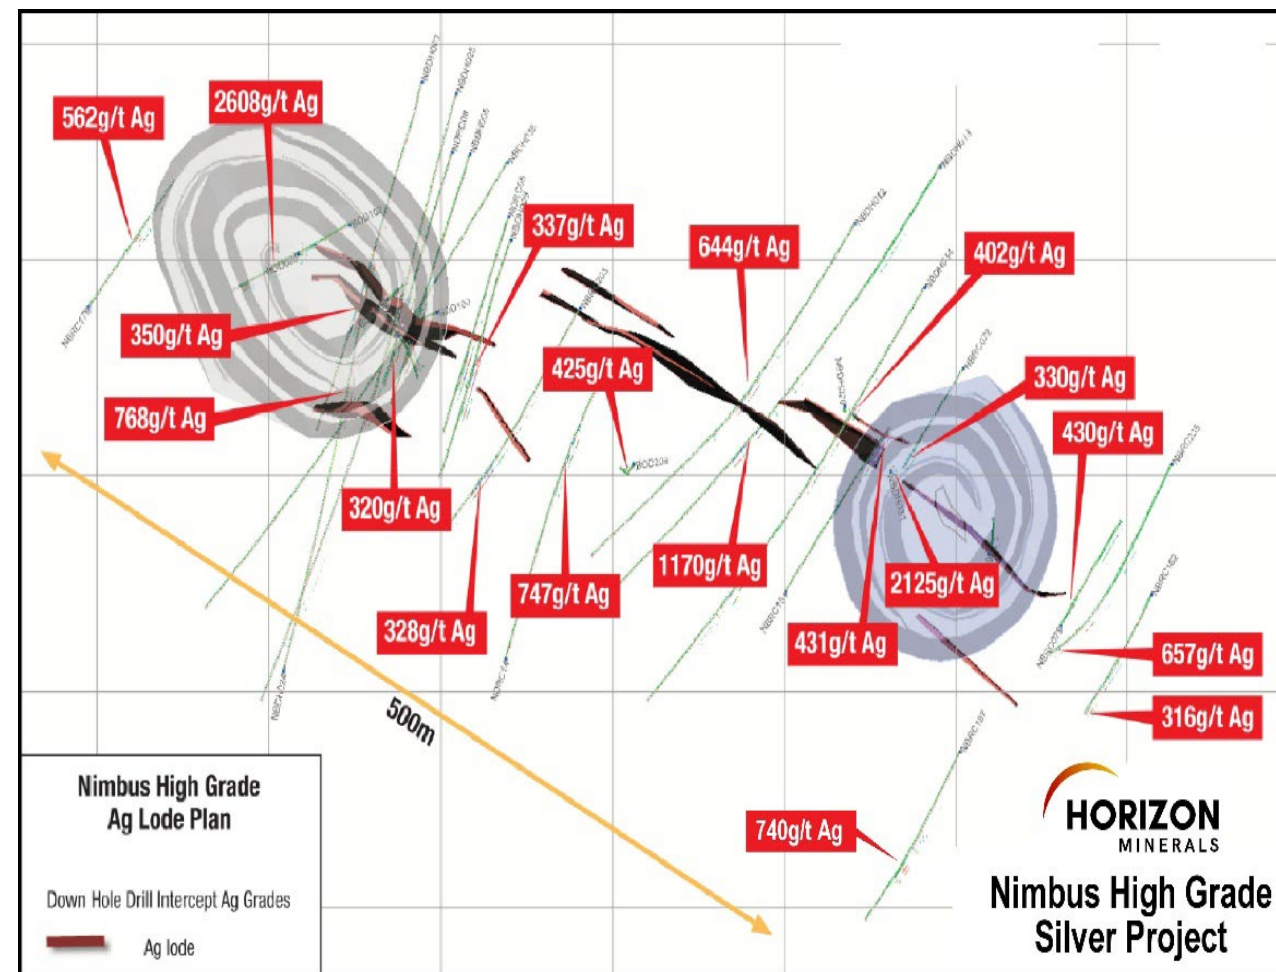

# KESTREL - GOLD

# NIMBUS SILVER – ZINC PROJECT

- Located adjacent to the Boorara gold project with shared infrastructure
- Mineral Resources of 12Mt @ 52g/t Ag and 0.9% Zn <sup>1</sup>
- High grade core below the discovery pit of:
  - 260kt @ 774g/t Ag for 6.4Moz Ag and 12.8% Zn for 33kt Zn <sup>1</sup>
- Extensive drilling and metallurgical test work completed
- Technical review and concept study confirms potential of mining higher-grade lenses and generating a silver and zinc concentrate with interest received from potential offtakers
- Assessment including gold concentrates from Teal deeps
- Additional drilling required to increase overall tonnage
- Exploration target defined at depth for 550-700kt Ag-Pb-Zn grading 3.4-3.6% Zn, 140-210g/t Ag and minor Pb
- Drilling planned for September and December Quarters 2022 <sup>2</sup>

1. As announced to the ASX on 24 March 2022, see Tables and Confirmations on Page 21.  
2. See Forward Looking and Cautionary Statements on Pages 2 and 22

## Confirmation

The information in this report that relates to Horizon's Mineral Resources estimates on the Richmond Julia Creek vanadium project and Nimbus Silver Zinc Project is extracted from and was originally reported in Intermin's and MacPhersons' ASX Announcement "Intermin and MacPhersons Agree to Merge – Creation of a New Gold Company Horizon Minerals Ltd" dated 11 December 2018 and in MacPhersons' ASX announcements "Quarterly Activities Report" dated 25 October 2018, "Richmond – Julia Creek Vanadium Project Resource Update" dated 16 June 2020, "New High Grade Nimbus Silver Core Averaging 968 g/t Ag" dated 10th May 2016 and "Nimbus Increases Resources" dated 30th April 2015, each of which is available at [www.asx.com.au](http://www.asx.com.au). The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and that all material assumptions and technical parameters underpinning the estimates in those announcements continue to apply and have not materially changed. The Company confirms that the form and context of the Competent Person's findings in relation to those Mineral Resources estimates have not been materially modified from the original market announcements.

# FORWARD LOOKING AND CAUTIONARY STATEMENT

- As noted on Slide 2, some statements in this Presentation regarding estimates or future events are forward looking statements. They include indications of, and guidance on, future earnings, cash flow, costs and financial performance. Forward looking statements include, but are not limited to, statements preceded by words such as “planned”, “expected”, “projected”, “estimated”, “may”, “scheduled”, “intends”, “anticipates”, “believes”, “potential”, “could”, “nominal”, “conceptual” and similar expressions. Forward looking statements, opinions and estimates included in this Presentation are based on assumptions and contingencies which are subject to change without notice, as are statements about market and industry trends, which are based on interpretations of current market conditions. Forward looking statements are provided as a general guide only and should not be relied on as a guarantee of future performance. Forward looking statements may be affected by a range of variables that could cause actual results to differ from estimated results, and may cause the Company’s actual performance and financial results in future periods to materially differ from any projections of future performance or results expressed or implied by such forward looking statements. These risks and uncertainties include but are not limited to liabilities inherent in mine development and production, geological, mining and processing technical problems, the inability to obtain any additional mine licenses, permits and other regulatory approvals required in connection with mining and third party processing operations, competition for among other things, capital, acquisition of reserves, undeveloped lands and skilled personnel, incorrect assessments of the value of acquisitions, changes in commodity prices and exchange rate, currency and interest fluctuations, various events which could disrupt operations and/or the transportation of mineral products, including labour stoppages and severe weather conditions, the demand for and availability of transportation services, the ability to secure adequate financing and management’s ability to anticipate and manage the foregoing factors and risks. There can be no assurance that forward looking statements will prove to be correct.
- Statements regarding plans with respect to the Company’s mineral properties may contain forward looking statements in relation to future matters that can only be made where the Company has a reasonable basis for making those statements.
- The forward looking statements in this Presentation are based on current expectations, estimates, forecasts and projections about the Company and the industry in which it operates. They do, however, relate to future matters and are subject to various inherent risks and uncertainties. Actual events or results may differ materially from the events or results expressed or implied by any forward looking statements. The past performance of the Company is no guarantee of future performance.
- None of Intermin Resources Limited or its directors, officers, employees, agents or contractors makes any representation or warranty (either expressed or implied) as to the accuracy or likelihood of fulfilment of any future looking statement, or any events or results expressed or implied in any forward looking statement, except to the extent required by law.
- You are cautioned not to place undue reliance on any forward looking statement. The forward looking statements in this Presentation reflect views held only as at the date of this Presentation.
- The Company believes that it has a reasonable basis for making the forward looking statements in the Presentation, including with respect to any production targets and financial estimates, based on the information contained in this and previous ASX announcements.
