Directors' Report

Your Directors present their report on the consolidated financial statements for the half-year ended 31 December 2022.

Directors

The following persons hold office as Directors of Horizon Minerals Limited at the date of this report or were Directors at a time during the half-year:

- Ashok Parekh
- Peter Bilbe
- Jon Price

Principal Activities

The principal continuing activities of Horizon Minerals Limited (Company or Horizon) and its controlled entity (Group) during the period consisted of:

- Exploration and evaluation of gold projects across the portfolio
- Trial mining and toll processing on the Boorara Gold Project
- Continued acquisition growth including the purchase of the Penny's Find gold mine and the Cannon Gold Project
- Divestment of Janet Ivy royalty with Norton Goldfields and Lehman's Gold joint venture with Northern Star Resources (previously Saracen Mineral Holdings).
- Continued work on the consolidated Feasibility Study for the Boorara Gold Project.
- A strategic review of the Nimbus zinc-silver project including and offtake process

The consolidated entity made an after tax profit of \$1,747,375 (December 2021: \$3,746,605) for the half year.

Review of Operations

Corporate

Issued Capital

At 31 December 2022, Horizon had 622,846,215 fully paid ordinary shares on issue (December 2021: 567,975,200).

Company Investments

At 31 December 2022, Horizon held the following investments

Company	Number of Ordinary Shares	Value at 31 Dec 2022
Kingwest Resources Ltd	37,083,333	\$1,297,917
Richmond Vanadium Technology Ltd	19,833,363	\$4,660,840
Greenstone Resources Ltd	2,300,287	\$73,609
Cyprium Metals Ltd	84,617	\$8,885
TOTAL	59,301,600	\$6,041,251

At 31 December 2022, the Company had cash on hand of approximately \$1.4M.

Exploration and Development Activities

During the half year the Company made progress on a number of fronts. Key developments were as follows:

Exploration

During the half-year ended 31 December 2022, the Company completed 2,695m of RC drilling as part of the >50,000m resource definition and new discovery exploration program across the entire 1,100km² asset portfolio.

Reverse Circulation (RC) drilling was completed at the Monument and Pinner prospects near the Cannon Open Cut Gold Mine 28km south east of Kalgoorlie. A total of 2,695m was drilled. The results highlighted potential for two small open cut gold mines.

At Yarmany, 55km north west of Coolgardie, 976 shallow auger drill holes (1-2m) were completed for multi-element analysis. New targets were generated. Field reconnaissance, including soil sampling and rock chip sampling have further identified potential areas of interest for gold, nickel, pegmatites (lithium) and REE along the Mt Ida Fault.

For details on the drilling programs, we refer you to the announcements released on the ASX and on the Company's website (www.horizonminerals.com.au). .

Mine Development

Work progressed on advancing the development of underground project pipeline, specifically the low tonnage, high grade Cannon, Penny's Find and Rose Hill projects under a contract mining and toll milling model. Horizon acquired the remaining 50% of the Penny's Find project from Labyrinth Resources Limited (ASX: LRL) in August 2022, with Horizon now owning 100% of the project.

Updated Mineral Resource Estimates (MRE) were released for Penny's Find, Coote, Baden Powell and Windanya. Horizon's total Mineral Resources now stand at:

- 22.6Mt grading 1.71g/t Au for 1.24 million ounces at various cut-off grades (with approximately 70% in the Measured and Indicated categories)

Current work at Cannon is focussed on obtaining all statutory approvals and contractor / JV partner selection for underground mining and ore haulage to a third-party toll mill, which all progressed during the half. All environmental approvals have been granted or are under assessment by the relevant government department. Horizon has a toll mill allocation of 200,000 tonnes through the Greenfields mill in Coolgardie as part of the sale agreement through divesting the Gunga West project to FMR Investments. Cannon is planned to be developed in the December 2023 half.

During the half-year 31 December 2022, the Company continued the evaluation of the Penny's Find deposit on a 100% ownership basis and completed first pass optimisation, mine designs and economic assessment. The internal review and results from the latest drilling highlighted the potential to grow the production profile with infill drilling to convert the Inferred material to Indicated in the western domain and extension drilling along strike to the north and, particularly at depth below the current resource envelope, with Reverse Circulation (RC) and diamond drilling planned in the June half 2023 enabling compilation of an updated MRE and completion of the Pre-Feasibility Study (PFS) thereafter.

Exploration and Development Activities (continued)

Nimbus Silver-Zinc project

The Nimbus project lies adjacent to the Boorara gold mine (Figures 1 and 13) and was placed on care and maintenance in 2007 after producing 3.6Moz of silver from 318kt of ore processed at a grade of 353g/t Ag. The old plant has since been removed and the area rehabilitated.

The Project hosts a high-grade silver zinc resource of 256kt @ 773g/t Ag and 13% Zn as part of the global Nimbus resource of 12.1Mt @ 52g/t Ag, 0.9% Zn and 0.2g/t Au for a total of 20Moz Ag and 104kt Zn and 78koz Au.²

Extensive metallurgical test work has been completed on Nimbus ore with the Feasibility Study (FS) put on hold in 2016. In light of increasing silver and zinc prices and as announced to the ASX on 11 February 2021, the Company will retain the project and engage an independent technical team to review and update the FS.

The FS work was carried out on the technical aspects of the geology, mineralogy and concentrate options for the deposits with the aim of generating separate silver, zinc and potentially gold concentrates for direct sale. Initial discussions with potential offtake partners have shown significant interest in these concentrates enabling a simplified process flow sheet to be evaluated at significantly reduced capital and operating costs. Limited work was completed on Nimbus during the half as the Company focused on gold – nickel exploration and underground development activities.

Richmond Vanadium Project

In December 2016, the Company executed a binding Heads of Agreement (“HoA”) with Richmond Vanadium Technology Pty Ltd (RVT) to form a strategic joint venture (AXF JV) covering the Company's Richmond Vanadium Project (RVP) in Queensland (refer ASX announcement dated 13 December 2016).

As announced to the ASX on 27 October 2020, a positive Pre-Feasibility Study (PFS) was released focussed on the development of the Lilyvale vanadium deposit.

The Study delivered a maiden Ore Reserve for Lilyvale of:

- **459.2Mt grading 0.49% V₂O₅ for 2.25Mt of contained V₂O₅ product**

During August 2021, an update to the Pre-Feasibility Study (“PFS”) was released for the development of the Lilyvale vanadium deposit. The PFS was based on an initial 25 year life (25% of Ore Reserve) at Lilyvale demonstrating a financially viable project with the following key metrics:

- Shallow low impact open pit mining producing 101.5Mt of oxide ore at a fully diluted grade of 0.49% V₂O₅ for 19.75Mt of 1.82% V₂O₅ with concentrate production on site
- Refining overall recovery at 86.1% produces 317,500 tonnes of 98% V₂O₅ commercial grade flake with **average annual production of 12,700t V₂O₅**
- Modest up-front capital costs of A\$242.2m (US\$176.8m) and operating cash costs of A\$8.66/lb (US\$6.32/lb) of 98% V₂O₅ flake
- At a spot price of A\$13.15/lb (US\$9.60/lb) V₂O₅, project generates **NPV_{10%} of A\$613.0M (US\$447.5M) with IRR of 38%** and a payback of 3.2 years

During 2021, RVT commenced work on a Definitive Feasibility Study (DFS) to the next level of study where required in areas such as determining the optimal power supply for the project along with progressing environmental studies and preparing the documents for government permitting and approvals.

Horizon demerged its 25% interest in the Richmond Vanadium Project merging it with RVT's 75% now held by RVT. RVT announced its intention to list on the ASX and was successful during December 2022 listing on the ASX.

Directors' Report

Exploration and Development Activities (continued)

RVT had commenced offtake discussions with various potential offtake partners in conjunction with assessing the way forward in relation to the project. The result was a strategic partnership to develop both vanadium mining and vanadium redox flow battery manufacturing. A proposed investment of up to \$5 million was announced as part of the prospectus and a Subscription Agreement for \$3 million was signed on 28 February 2023. Under the terms of the Agreement (refer Prospectus dated 14 October 2022 and Supplementary Prospectus dated 21 October 2022 released to ASX on 9 December 2022), UPS will purchase vanadium pentoxide flake from Richmond Vanadium Technology, subject to availability and timeliness of delivery, quality, and price.

Auditor's Independence Declaration

In accordance with section 307C of the Corporations Act 2001, the Directors have obtained a declaration of independence from PKF Perth, the consolidated entity's auditors, as presented on page 7 of this half-year's financial report.

This report is signed in accordance with a resolution of directors made pursuant to S306(3) of the Corporations Act 2001, and on behalf of the Board by:

Mr Jon Price
Managing Director
9 March 2023

Directors' Declaration

In the Directors' opinion:

- 1) The financial statements and notes comply with the Corporations Act 2001, Australian Accounting Standard AASB 134 'Interim Financial Reporting', the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- 2) The attached financial statements and notes give a true and fair view of the consolidated entity's financial position as at 31 December 2022 and of its performance for the half-year ended on that date; and
- 3) There are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors made pursuant to section 303(5)(a) of the Corporations Act 2001.

On behalf of the directors

Mr Jon Price
Managing Director
9 March 2023

AUDITOR'S INDEPENDENCE DECLARATION
TO THE DIRECTORS OF HORIZON MINERALS LIMITED

In relation to our review of the financial report of Horizon Minerals Limited for the half year ended 31 December 2022, to the best of my knowledge and belief, there have been no contraventions of the auditor independence requirements of the Corporations Act 2001 or any applicable code of professional conduct.

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF HORIZON MINERALS LIMITED

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Horizon Minerals Limited (the company) and controlled entities (Group), which comprises the consolidated statement of financial position as at 31 December 2022, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, a statement of accounting policies, other selected explanatory notes, and the directors' declaration of the consolidated group comprising the company and the entities it controlled at 31 December 2022, or during the half year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Horizon Minerals Limited is not in accordance with the Corporations Act 2001 including:

- (a) giving a true and fair view of the consolidated group's financial position as at 31 December 2022, and of its financial performance for the half-year ended on that date; and
- (b) complying with the Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Group. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report.

Material Uncertainty Related to Going Concern

Without qualifying our conclusion, we draw attention to Note 1 in the financial report which indicates that the Group had negative operating cashflow of \$(3,046,737). These conditions, along with other matters as set forth in Note 1, indicate the existence of a material uncertainty which may cast significant doubt about the Group's ability to continue as a going concern and therefore, the Group may be unable to realise its assets and discharge its liabilities in the normal course of business, and at the amounts stated in the financial report.

Independence

We are independent of the company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Level 4, 35 Havelock Street, West Perth, WA 6005
PO Box 609, West Perth, WA 6872
T: +61 8 9426 8999 F: +61 8 9426 8900 www.pkfperth.com.au

PKF Perth is a member firm of the PKF International Limited family of legally independent firms and does not accept any responsibility or liability for the actions or inactions of any individual member or correspondent firm or firms.

Liability limited by a scheme approved under Professional Standards Legislation.

Directors' Responsibility for the Half-Year Financial Report

The directors' of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with the Australian Accounting Standards and the Corporations Regulations 2001 and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Group, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated group's financial position as at 31 December 2022 and its performance for the half year ended on that date, and complying with Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Horizon Minerals Limited and the entities it controlled during the half year, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

The above Consolidated Statement of Cash Flows should be read in conjunction with the accompanying notes.

Notes to the Financial Statements

1 Significant Accounting Policies

These general purpose financial statements for the interim half-year reporting period ended 31 December 2022 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 134 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to read in conjunction with the annual report for the year ended 30 June 2022 and any public announcements made by the entity during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

New or Amended Accounting Standards and Interpretations Adopted

The consolidated entity has adopted all new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Going concern

The general purpose interim financial statements have been prepared on the basis of going concern which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business. As disclosed in the interim financial statements, the Company incurred a profit of \$1,747,375 (31 December 2021: profit of \$3,476,605) and had cash outflows from operating activities of \$3,046,737 for the year ended 31 December 2022 (31 December 2021: outflows of \$2,104,918). As at that date, the Company had net current assets of \$917,212 (30 June 2022: net current assets of \$1,807,357) and continues to incur expenditure on its exploration tenements drawing on its cash balances. As at 31 December 2022 the Group had \$1,431,633 (30 June 2022: \$5,406,635) in cash and cash equivalents.

The ability of the Company and the Group to continue to pay its debts as and when they fall due is dependent upon the Company successfully raising additional share capital and ultimately developing its mineral properties.

The accounts have been prepared on the basis that the Company can meet its commitments as and when they fall due and can therefore continue normal business activities, and the realisation of assets and liabilities in the ordinary course of business. The Directors believe that they will continue to be successful in securing additional funds through equity issues as and when the need to raise working capital arises.

Notes to the Financial Statements

2 Profit/(Loss) for the Half Year

The following income and expense items are relevant in explaining the financial performance for the interim period:

(a) Other Income:

Recovery of administration costs	224,219	85,882
Profit on sale of tenement interest	300,000	-
Profit/(loss) on sale of investments	(15,000)	1,082,848
Diesel fuel rebate	-	14,073

4 Exploration, Evaluation, Development and Production Expenditure

During the half year ended 31 December 2022, the Group incurred and capitalised the following exploration, evaluation and development expenditure:

Exploration and evaluation phase

	December 2022 \$	June 2022 \$
Carrying amount at beginning of period	29,377,548	48,931,342
Capitalised during the period	1,624,559	7,613,852
Transfer to equity investment	-	(1,124,778)
Purchases of tenements	950,000	5,000,000
Sale of tenements	(325,000)	(25,000)
Impairment	-	(31,017,868)
Carrying amount at end of period	31,627,107	29,377,548
Mine properties		
Carrying amount at beginning of the period	-	-
Reclassification of mine properties	-	-
Carrying amount at end of period	-	-
Mine production expenditure		
Carrying amount at beginning of the period	-	-
Capitalised during the period	-	-
Mine production costs expensed	-	-
Carrying amount at end of period	-	-
Total exploration and mine properties	31,627,107	29,377,548

The ultimate recoupment of these costs is dependent on successful development and commercial exploration, or alternatively, the sale of the respective areas.

5 Trade and Other Receivables

Other receivables – ATO receivables	-	-
Other receivables – sale of tenement – deferred payment*	500,000	800,000
Prepayment and other receivables	255,983	354,209
Accrued interest	-	11
Term deposit – bonds & credit card security deposit	17,100	17,100
	1,029,279	1,264,542

Notes to the Financial Statements

5 Trade and Other Receivables (continued)

*Receivable – Sale of Tenement – Deferred Payment

During the period to 31 December 2022, the Company received \$300,000 being the second of three deferred payments for the 100% divestment of its interest in the Nanadie Well Copper project to Cyprium Metals Limited (ASX: CYM) in September 2020. The payment was made in cash in lieu of shares and the final tranche of \$200,000 will be paid in Cyprium shares on a decision to mine from the tenure. The shares are based on a 20 days VWAP.

The Company also recognised a \$300,000 receivable as final consideration for the 100% divestment of its interest in the Gunga West gold project to FMR Investments Pty Ltd (ASX: FMR) during the year ended 30 June 2022.

10 Segment Information

Management has determined the operating segments based on the reports reviewed by the board that are used to make strategic decisions.

The board considers that the reportable segments are defined by the nature of the exploration and mining activities. As such there are two reportable segments being Vanadium/Molybdenum tenements and Gold tenements.

	Vanadium / Molybdenum	Gold	Total
	\$	\$	\$
31 December 2022			
Revenue	-	6,560	6,560
Profit/(loss) before Income tax	-	5,712,451	5,712,451
31 December 2021			
Revenue	-	2,339,501	2,339,501
Profit/(loss) before Income tax	-	(314,774)	(314,744)
31 December 2022			
Total Segment Assets	241,920	33,131,486	33,373,406
30 June 2022			
Total Segment Assets	1,249,802	37,493,174	38,742,976

	December 2022	December 2021
	\$	\$
Segment profit/(loss)		
Segment profit/(loss) reconciles to profit/(loss) before income tax as follows:		
Segment profit/(loss) before income tax	5,712,451	(314,774)
Interest revenue	7,148	7,521
Unallocated costs net of other revenue consisting of:		
Net change in fair value on financial assets at fair value through profit and loss	(3,972,224)	4,053,858
Profit/(loss) before income tax	1,747,375	3,746,605

Total assets	40,846,290	73,625,186

Notes to the Financial Statements

11 Share Based Payments

As at 31 December 2022, 3,533,333 Class I performance rights were cancelled.

The performance rights were granted at nil consideration, do not have an exercise price and will lapse if the vesting conditions are not met.

The Performance Rights are issued under the Horizon Minerals Employee Incentive Scheme (EIS) approved by shareholders at the General Meeting held of 29 November 2019. The issue to Directors was approved at the Annual General Meeting on 26 November 2020.

Each Performance Right will, at the election of the holder, vest and convert to one fully paid ordinary share, subject to the satisfaction of certain Performance Conditions.

The terms of the Performance Rights will be as follows:

Class of Performance Rights	Service Condition	Performance condition
Class I Performance Rights	The holder or the holder's representative remains engaged as an employee or Director until the performance condition is satisfied.	(a) Prior to 31 December 2022 the volume weighted average price of the Company's Shares over 20 consecutive Trading Days on which the Shares trade is 25 cents or more; or (b) Prior to 31 December 2022 a Takeover Event occurs.
Class J Performance Rights	The holder or the holder's representative remains engaged as an employee or Director until the performance condition is satisfied.	(a) Prior to 31 December 2023 volume weighted average price of the Company's Shares over 20 consecutive Trading Days on which the Shares trade is 30 cents or more; or (b) Prior to 31 December 2023 a Takeover Event occurs.

During the half-year ended 31 December 2022, \$101,242 was expensed as a share based payment in respect of Class I and J performance rights, with the fair value being recognised over the vesting period. As at 31 December 2022, a total of 3,533,334 performance rights remain unvested.

Notes to the Financial Statements

Risk free rate	0.11%	0.12%	0.10%	0.15%	0.39%
Dividend yield	Nil	Nil	Nil	Nil	Nil

Notes to the Financial Statements

12 Contingent Liabilities

- (a) Native title claims have been made with respect to areas which include tenements in which Horizon and the controlled entity have interests. The entities are unable to determine the prospects for success or otherwise of the claims and, in any event, whether or not, and to what extent, the claims may significantly affect them or their projects.
- (b) Security bonds are held with respect to tenements held in Northern Territory. Bonds are set by the Department of Primary Industry and Resources, however there is no certainty that such bonds will be adequate to cover any environmental damage. Horizon and its controlled entities are not able to determine the nature or extent of any further liability in view of changing environmental requirements.
- (c) Horizon has been advised of a potential liability arising as a result of the storage of laboratory waste material at the White Range project site and is currently awaiting approval from the NT Environmental Protection Authority to bury the material at White Range. As at the date of this report, the potential liability for the rectification remains unquantifiable.

13 Subsequent Events

- (a) On 17 January 2023, the Company divested its remaining interest of 37,088,333 shares in Kingwest Resources Ltd (ASX: KWR) through a managed off-market sale process and received cash proceeds totaling \$1.3 million. Proceeds from the sale, together with existing cash, will be applied towards the CY2023 exploration program which will commence in the March 2023 quarter.
- (b) On 1 March 2023, the Company extended the escrow period for a further 6 months to 30 August 2023 of 3,000,000 ordinary shares planned to be released from escrow on 28 February 2023. The shares will be released to Labyrinth Resources Ltd (ASX: LRL) as part of the acquisition for the remaining 50% of Penny's Find gold mine.

There are no other matters or circumstances that have arisen since 31 December 2022 that have or may significantly affect the operations, results, or state of affairs of the Group in future financial periods.

Notes to the Financial Statements

14 Gain on Demerger of Associate

On 5 December 2022, Richmond Vanadium Technology Pty Ltd (RVT) was demerged from the Horizon Minerals Limited Consolidated Group (Horizon), following approval by Horizon Shareholders at the Annual General Meeting held on 17 November 2022. Existing Horizon shareholders received shares in RVT on a 1 RVT share for every 31.1391 Horizon shares held (in-specie distribution) resulting in an associated reduction in share capital of \$8,000,000. The number of shares issued with the in-specie distribution was 20,000,000 at the determined share price of \$0.40 per share (same as at initial public offering of RVT). The share price at demerger of RVT was determined to be \$0.40 per share (same as at initial public offering of RVT) resulting in a realised gain of \$8,663,873.
